## Domicil Real Estate AG postpones flotation plans

**Munich,** October 16, 2019 – In view of the current difficult market environment, Domicil Real Estate AG, an established and owner-managed investment and real estate service provider with its registered office in Munich, has decided to postpone its plans for an initial public offering. “We met with considerable interest and received very positive feedback on our business model from investors. Against the background of the current stock market environment, however, we have decided to postpone the planned initial public offering until a later point in time,” explains Khaled Kaissar, the chief executive officer of Domicil Real Estate AG. Domicil will observe the capital market environment and implement its flotation plans as soon as the market environment proves to be more favourable.
